CLASS DESCRIPTIONS				

Aquafit: This low-impact, shallow water class promotes stability, joint flexibility, and range of motion while building cardiovascular endurance and muscular strength.

Cardio Drumming - Seated: A fun, rhythmic seated drumming class using stability balls as drums. A unique sensory/motor program designed to give the mind and body instant feedback. Open to all fitness levels.

Line Dancing: Move and groove to a variety of music, basic footwork and fun choreography while dancing your way to better health! You'll boost your brain power by improving your memory skills.

SilverSneakers® Classic: Have fun and move to the music through a variety of exercises designed to increase muscular strength, range of movement, and activity for daily living skills. Hand-held weights, elastic tubing with handles, and a ball are offered for resistance, and a chair is used for seated and/or standing support.

Start Walking!: This is a 20-minute at home walking video with Leslie Sansone, played on the big screen! With this gentle walking program, you will complete a low impact walk in place for about 20 minutes. Chairs will be provided so you can sit and rest as needed.

Tai Ji Quan: Moving for Better Balance: An evidence-based falls prevention program derived from a contemporary routine known as Simplified 24-Form Tai Ji Quan (pronounced tye gee chuwan). TJQMBB consists of an 8-form core with built-in practice variation. Aimed at improving postural stability, awareness and mindful control of body positioning in space, functional walking, movement symmetry and coordination, range of motion around the ankle and hip joints, and lower-extremity muscle strength. ***No prior experience is necessary.**
